

## MEET CONTEC...

an **international engineering company** specializing in **improving and automating industrial processes and machines**. Since 1987, the company has grown to employ **238 employees, spread over 7 sites**, including 4 foreign offices in Romania, Poland, UK and France.

## CHALLENGES FOR FACILITY MANAGERS & DEPARTMENTS

- **Contracts were spread everywhere and among different people.** Finding a contract was a bothersome & time-consuming task.
- **The company lacked an overview of all contracts**, so no one had a 'helicopter view' over the contracts.
- There was no consistent follow-up. As a result, **contracts were often not terminated or not renewed on time.**

## HOW DID THEY TRY TO SOLVE THIS BEFORE CONTRACTIFY?

- All contracts were still **printed out and stored on paper, in folders.**
- **Contracts were followed up manually**, without an automated process.
- **Growth and internationalization made it impossible** to continue following up contracts like this.

## HOW DID THEY SOLVE THIS WITH CONTRACTIFY ?

- All contracts and attachments are now tracked and **monitored in 1 central location.**
- Contec uses Contractify as a central management system to **maintain a clear overview of all contracts within the organization.**
- Automated follow-up ensures that **contracts can be validated, renegotiated or terminated on time.**
