MEET FABRIQUE FANTASTIQUE...

a **Belgian animation studio**, responsible for making **TV series and films** for Ketnet, among others. The company currently has **55 permanent employees** working full-time to animate the various ongoing projects.

CHALLENGES FOR C-LEVEL & MANAGEMENT

- Project-based work and a large number of contracts make it **difficult to keep an overview and find contracts quickly.**
- There is no central repository, **contracts are scattered everywhere.**
- **Difficult to trace which agreements have been made** in cooperation with other parties.

HOW DID THEY TRY TO SOLVE THIS BEFORE CONTRACTIFY?

- Deadlines and appointments were kept in **calendars and mailboxes.**
- Contracts were kept in several folders on the server, resulting in **hours of searching for contracts.**
- **Contracts were managed difficultly** on a project basis due to a **lack of overview.**

HOW DID THEY SOLVE THIS WITH CONTRACTIFY ?

- One **central database with extensive filters** where they can **find contracts in record time**.
- **Perfect overview of all contracts, their value, and possible future problems**.
- Using **tags**, they can **quickly find contracts linked to specific projects**.
