

BUSINESS CASE | START-UPS

MEET PITCHDRIVE...

Pitchdrive offers **qualified and validated funding opportunities** in the most accessible and diversified way to build the most investable company and turn your dreams into a successful enterprise.

CHALLENGES FOR START-UPS

- Without a dataroom, it is quite a **hassle for start-ups to manage their legal and contractual affairs.**
- Start-ups have a lot of different things going on, which makes it **difficult to collaborate in an efficient way.**
- Due to a still unclear process of contract follow-up, **deadlines and opportunities are overlooked.**
- Contracts are **not always executed as they were initially drafted.**
- When a start-up grows, **all information, documents and contracts get scattered around the place.**
